**ATM**  
SOFTWARE

SOFTWARE

## An ATM Cash Delivery Solution for Small Enterprises

### Advantages

- Provide **24-hour** Cash Withdrawals / Cash Advances, to your Employees
- Employees issued with Company branded ATM Cards for use in Company owned ATM
- Issue any cash amounts without the need for counter service
- Full consultancy service covering, hardware, software, installation, ATM card production and integration with your computer system
- Company Purchases ATM outright with ongoing servicing in event of faults

### Technology

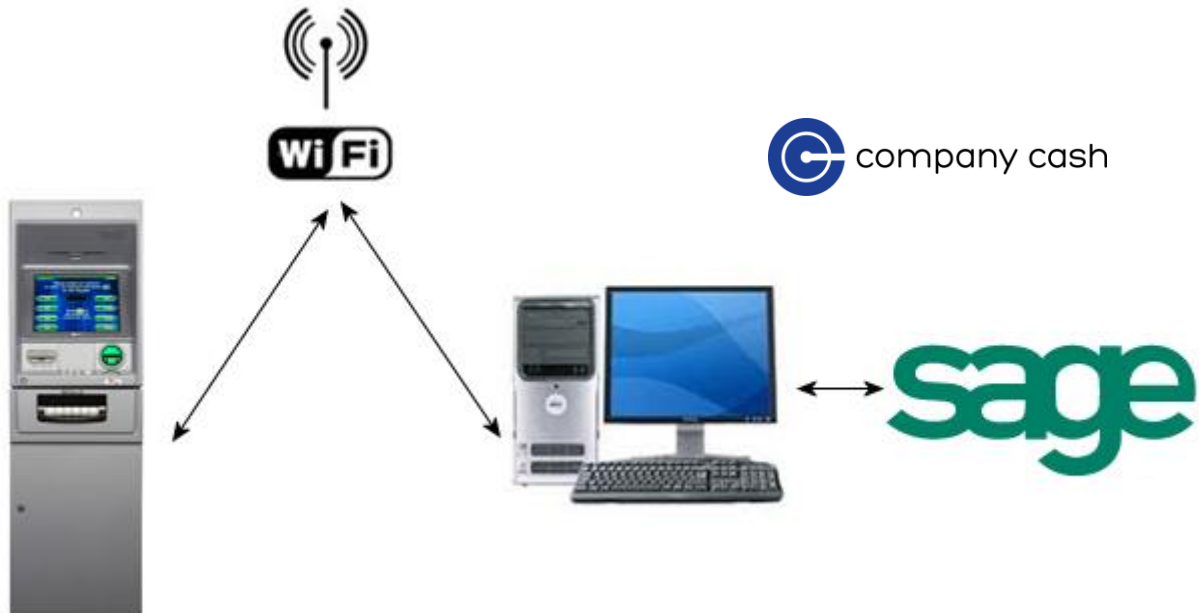

- Modern technology and the latest NCR ATM machines . Same technology as offered by major banks
- Wireless Solution – No Cable Connections to ATM required

### Indoor and Through the Wall

- The NCR indoor range of ATMs enhances any interior office space with a minimal footprint. Ideal for very tight locations or where space is at an absolute premium
- The NCR outdoor range of slimline, through the wall ATM machines, can offer services when your office is closed. Ideal for very tight locations, including through-glass placement, or where space is at an absolute premium

The costs of purchasing and operating an ATM are not significant and, the ATM can be connected easily to other business systems

- Includes all Professional Services, Software Licences associated with developing a solution. Full consultancy service covering, hardware, software, installation, ATM card production and integration with computer system

- Annual Manufacturer Hardware Service Contract for ongoing maintenance of ATM using NCR Maintenance Services

### Technical Details

- The technical integration into accounting systems is not difficult. Because the 'ATM Management Station' directly manages the ATM, the link into the accounting system is reduced to requests for Balances and Cash Amount approvals
- The accounting system (e.g. Sage) connects the ATM 'Card' to the Employee 'account', provides Balances and Cash Amount approvals

## Card Issuing Costs

- Depends on the process used to create and issue cards to employees (Card + PIN)
- Use the Card as an asset which will also allow the branding of the Company to be carried by each Employee
- Choice of 'Delivery Solutions' – Envelope Style, Gift-Card Style

Issue ATM Cards and PINs easily using the latest Card Issuing technology. In this case, an employee is handed an ATM Card Package which contains the actual ATM card attached to a carrier which contains the PIN in a Scratch Panel. The employee simply 'breaks away' the ATM card avoiding complicated separate delivery of ATM and PIN
