ATM
SOFTWARE

SOFTWARE

Advantages

- Provide ATM transactions without the need for a card
- Transaction initiated by consumer using smartphone to capture QR Code from ATM
- Transaction is authorised by consumer Smartphone
- Issue any cash amounts without the need for any type of cards

Technology

- Modern technology and the latest NCR ATM machines. Same technology as offered by major high-street banks
- Wireless Solution Option – No Cable Connections to ATM required. Easy siting of ATM in environments such as airports, ferry ports and railway stations

Indoor and Through the Wall

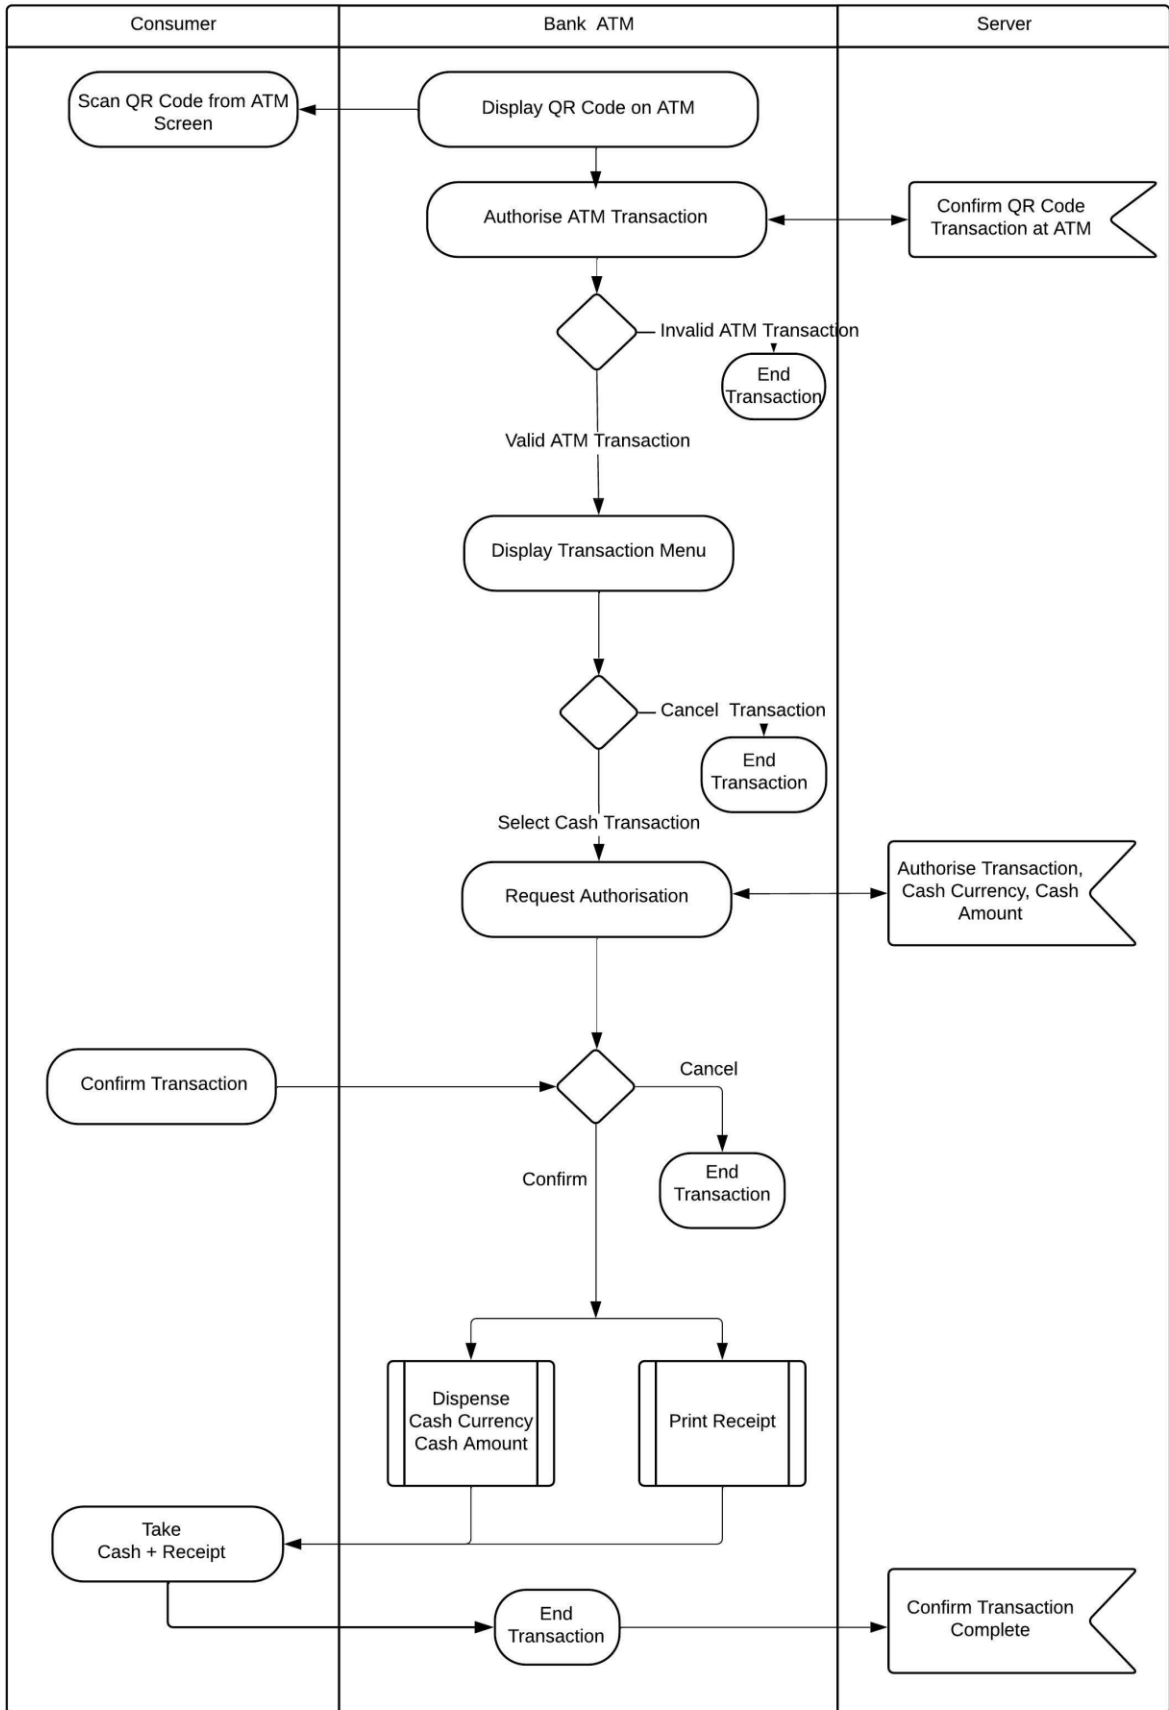

- The NCR SelfServ 22 and 26 Models enhances any interior office space with a minimal footprint. Ideal for very tight locations or where space is at an absolute premium
- The NCR SelfServ 25 is a through-the-wall machine with Dual-Dispense Capability. Up to 8 Cash Cassettes each with a different currency and denomination

Software Solutions

- Unique ATM software solution easily connects to any business system
- Optional Management Station
- ATM does not need a Card Reader or, complex EPP Keyboards
